Web Hosting Pricing Plans

High specification, reliable business site hosting with your own web space and mail forwarding or a POP3 INCOMING mailbox with unlimited e-mail aliases and all the functionality needed for a business quality web site – and all fully managed by AnnWebCom.

5 mB Hosting only £55.00 per year
For micro sites.

10 mB Hosting only £85.00 per year
For small business sites.

25mb Hosting only £125.00 per year
For larger sites, e-commerce sites and those with multiple functionality or high volume traffic.

Further space available at £55.00 per 10mB per year.

UNLIMITED Web Space only £350.00 per year

Hosting Options

Secure server space also available for credit card trading, from £100 per year.

Password protected folders also available. Enquire for more details and pricing.

All hosting accounts can include comprehensive server statistics reports that we can provide monthly if required (extra charges apply).

User FTP Access: Hosting prices do not include user FTP access for publishing your own web site, which costs £30 per year extra.

Control Panel Access (includes access to MySQL admin.): add £50 per year.

ASP (Windows) Hosting is not offered except for sites designed and managed by AnnWebCom.

Hosting accounts do not include dial up or broadband connection.

Bandwidth Charging
Please note, at present we do not charge for bandwidth utilisation (traffic) but we are aware that hosting providers are now changing their charging basis to a include a bandwidth based scale in addition to web space charges. Therefore it is likely that during the next year we may have to revise our charging basis for web and e-mail hosting.

AnnWebCom, Willow Lodge, Springhill Road, Grendon Underwood, Aylesbury, Buckinghamshire, HP18 0TF

AnnWebCom is a trading name of Business RemIT Limited. Registered office: 1 Cornwalls Meadow, Buckingham, MK18 1NT
Registered in England & Wales, #4211974

Email Options

Additional **INCOMING POP3** mailboxes are £15.00 per year.

Web mail is available for £50.00 per year – but you can use the free "mail2web.com" service for this (not an AnnWebCom service).

OUTGOING SMTP Mailboxes

It is usually possible to use the OUTGOING SMTP server provided by your connection ISP for outgoing mail. However, we can provide an outgoing SMTP service if your ISP doesn't provide one for use with 3rd party domains or if you need "roaming" capability (e.g. to send mail from anywhere via your laptop – you will still need an internet connection though!). £25 per year.

Server based SPAM and Virus Filtering for all e-mail to addresses at one domain. NOTE: This is a filter – like a sieve – it is not a 100% blocker of all spam or, for that matter, viruses. IMPORTANT: Ensure local virus protection is maintained as there are sources of viruses additional to your regular e-mail service. £45 per year.

Prices exclude VAT.
